Frank Hays Again Refuses to Give Up as Justice

Frank Hays notified Sheriff Bob Barnett yesterday by registered letter that he was the regularly elected Justice of the Peace in precinct No. 4, and would continue to serve in spite of the fact that the Commissioner Court had accepted his resignation and appointed W. C. Stevenson in his place.

Hays notified the sheriff that he would continue to hold office, and that if any cases were filed before Stevenson that Hays would claim the fees and hold the sheriff responsible for the same.

No cases have been filed before Hays since he was charged in January with refusing to do his official duty in issuing a search warrant, for which he was tried and found guilty. Neither has any case been filed before Stevenson since he was appointed two weeks ago. All cases since January have been filed in the county court, and will continue to be filed in the county court until the squabble is settled and it is determined who is the legal justice of the peace.

Wildorado Bank Safe Found In the Money School

Burglars entered the Wildorado State Bank Friday night and hauled away the safe, which contained \$326 and valuable papers. The safe was found in the Money school house south of Umbarger Tuesday when a farmer notified Sheriff Bob Barnett that his son had found the safe in the building. Accompanied by a finger print expert from Amarillo, Sheriff Barnett went to the scene and found that the ton-safe had been opened by acetylene torch and hammering. Many of the papers in the safe had been burned by the heat.

A truck was used in removing the safe from the bank, and this was located in Amarillo Saturday. No arrests have been made on the case. This is the fourth time that the Wildorado bank has been burglarized. The furniture of the bank was virtually wrecked in removing the safe.

Ex-Students of W. T. Will Hold Banquet Thursday

Thursday evening, June 1 at six o'clock the annual ex-student banquet will be held at Cousins Hall, with the class of 1931 in charge. Malcolm Hunt of Canyon is president of this class and an excellent program is being worked out. In keeping with the times and to encourage all who possibly can to attend, the tickets have been priced at the low figure of fifty cents. Ex-students may make reservation through Miss Ruth Lowes, and members of the class of 1933, who are especially likely to come, will secure their tickets through the president, Keith Guthrie.

Superintendent Irby Carruth, president of the Ex-student Association appointed the committees to make the arrangements for the affair, which is always one of the most colorful events of commencement week.

120 Wheat Loan Applications of County Farmers

Applications have been made by 120 Randall county farmers for wheat loans through the local committee composed of W. H. Upchurch, W. C. Black, T. C. Thompson and R. O. Allison.

The committee states that the time limit on the crop production loans has already expired. However a few days remain in which to make application for wheat loans. All applicants for wheat loans are urged to get their applications in the hands of the committee before June 1st.

Mrs. Lee Foster went to Memphis to play for the funeral services of D. H. Arnold, an old friend of her family. Mr. Arnold was well known in Canyon, having attended the meetings of the Historical Society here several times. He had lived in northwest Texas nearly fifty years.

Miss Erma Campbell, who has been teaching at Aztec, New Mexico, has returned to Canyon for the summer. She will return to Aztec next fall.

BILL SUMMER SCHOOLS PASS IN THE SENATE

W. T. Reduced Again In Report of the Free Conference

\$11,110 IS TOTAL

\$10 Per Capita, With Possible Increase of Fees

The free conference report for summer school appropriation for this year was adopted yesterday by the Senate and will likely be passed today by the House. W. T. was allowed only \$11,110 for this summer's sessions. This college has received \$35,000 in past years. The senate bill had allowed \$24,500, and the House cut this amount in two.

The free conference decided upon the policy of allowing the colleges \$10 per capita based upon the attendance of last summer. At the same time the colleges were allowed to raise the fees from \$5 to \$10 per six weeks' term.

Dr. J. A. Hill stated this morning that he had not considered the question of increasing fees. The presidents will likely decide upon a uniform policy for the state institutions. In sending out announcements for the summer session, all institutions published the usual fees but noted that these might be raised by the legislature. Dr. Hill is taking up with the other presidents the question of fees for this summer's session. If there is any change in fees, announcement will likely be made during the coming few days.

Dr. Hill states that indications are good for the summer session, and many students have asked for information regarding the session. Bulletins on the session have been mailed over the Plains section.

SUSPENDED IMPOSITION OF SENTENCE ON R. E. BURRUS

Robert E. Burrus was in federal court Tuesday charged with counterfeiting silver dollars and putting them in circulation. Judge Wilson suspended imposition of sentence for five years pending good behavior. It was charged that several of the dollars had been put in circulation in Canyon.

Judge Wilson explained that he believed Burrus' act was foolish rather than criminal owing to the crudeness in making the dollars.

Action on Park Will Likely Be Made Tomorrow

Whether there is to be a Palo Duro Park or not will likely be decided in Washington tomorrow. Indications were good yesterday that the final report would be favorable.

J. O. Guleke arrived in Washington Monday to iron out the difficulties confronting the park situation. Telephone communication between Washington, Amarillo and Austin has been maintained daily with indications that difficulties in the way have finally been settled.

It is contemplated that 14,000 acres will be turned over to the State Park Board, and that the government will establish four work camps in the canyon.

If the present project does not work out, other projects are being contemplated as an alternate.

Rotarians Hear Demonstration Students Tuesday

Miss Ada V. Clark, director of music in the demonstration school of W. T., directed the program Tuesday at the luncheon of the Rotary Club. Miss Clark sang a group of solos. Miss Eulalia Burrows gave two readings. The boys' chorus of 22 members sang a group of cowboy songs.

President Oscar Gano reported on the inter-city meeting held in Amarillo Thursday night, which was attended by four Canyon members and their Rotary Anns.

An invitation of the Panhandle Rotary Club was accepted for June 9th for an inter-city meeting.

The birthday of Walter Upchurch tomorrow was recognized. Visitors present Tuesday were: Harry Hughes of Cosa Grada, Ariz., S. E. Porterfield of Vernon, and Claude Thurman of Canyon.

Felix Neff Gets Golf Clubs For Tournament Win

Felix Neff won a set of golf clubs in the grain dealers tournament at Amarillo last week. Neff is one of the aces of the Canyon Golf team. Mr. Neff stated that from present indications, the grain dealers of the Panhandle will have little to do but play golf this year.

Mr. Neff states that grain dealers estimate that not more than 4,000,000 bushels of wheat will be harvested in the Panhandle this year. Two years ago 5,000,000 bushels were shipped from Happy, and about 50,000,000 bushels from the Panhandle.

Miss Frances Usery Gave Senior Piano Recital Tuesday

Miss Frances Usery, popular and talented W. T. Senior was presented in her senior piano recital Tuesday at 8:30 o'clock in the Main Auditorium. She is the daughter of Mr. and Mrs. Dan K. Usery of this city.

"By far the best student piano recital ever played here," was the general comment of those who heard the recital.

The entire program was characterized by brilliant playing, beautiful tone quality and technique which was entirely adequate. The composure of Miss Usery quickly communicated itself to her audience giving them keen pleasure which was evidenced by the close attention which all her numbers received.

Active in the musical affairs of this college for a number of years, Miss Usery has been pianist and soloist for the Glee Club, piano soloist with the Student-Lyceum course, and piano soloist in the College orchestra last year. She recently gained favorable comment in the annual concerto contest held in Amarillo at which time she played the difficult Mozart D Minor concerto.

So we have beer in Texas regardless of the Dean law. Permits are being issued by the federal government in most of the cities to sell 3.2 beer regardless of the state law which prohibits the sale of intoxicating liquors. Of course the fact that congress decreed that 3.2 beer is not intoxicating is the real fly in the ointment, and has brought statements in some counties that the sales will not be molested. It is said that the brewers are playing safe and sending into dry territory beer that is very weak, in fact only 1.75 per cent. They are fearful that the strong drink would wreck their chances for the repeal of the 18th amendment. They realize that drunkenness on the streets would make the people revolt against the return of the open saloon. If the people in dry territory repeal existing state laws, then the strong beer will be available, and the saloons will flourish. Yes, let no one be deceived. The saloon is coming back, and coming back stronger than ever in the history of this country, if prohibition is repealed.

President Roosevelt jumped into big company when he called upon the nations of the world to declare for peace rather than continue to prepare for war. A most hearty response came from the leading nations. Whether they really meant what they said remains to be seen. Americans have become a little world-conscious and world-thinking since the experience of financing the war. We were fine fellows when we were sending men, money and materials to the allies. But when the bill collector came around it was very different. America has learned a big lesson in politics since 1914. Perhaps our leaders have become world-minded since these experiences. Perhaps we now have leaders who are sufficiently familiar with world conditions and world problems so that we will not be "traded out" entirely as we were following the world war. The President is moving fast, tackling one big problem after another.

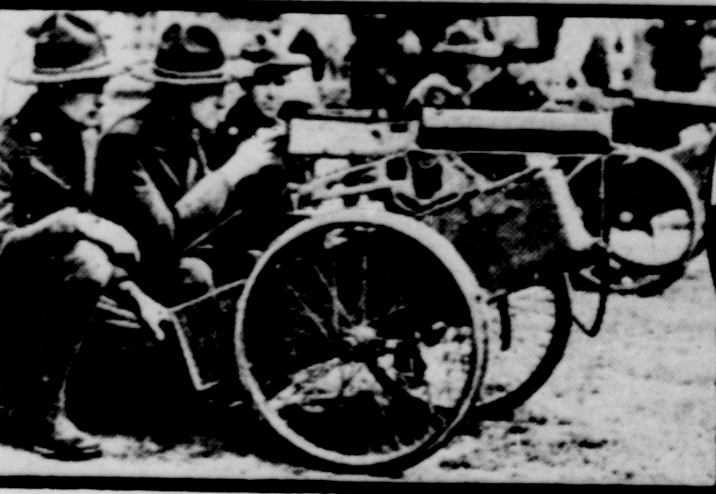

A movement in the legislature would allow delinquent poll tax payers to make such payments by July 15th in order to vote in the August 26th election. The movement started with the antis, and it is suspected that they feel that they would secure the bulk of the 400,000 voters who would be eligible by making this payment. The News believes that the state should give those who did not pay their poll taxes this year a chance to make this payment and allow them to vote August 26th. The beer issue will bring out the vote. When prohibition was voted, the antis said they did not get a square deal. By allowing poll tax payments now, the delinquents could pay up, adding about \$700,000 in revenues to the counties and state, and at the same time making it possible for a full strength vote this summer.

Legalized horse race gambling will be permitted in Texas for two years if Governor Ferguson does not veto this provision from the departmental appropriation bill. The state will get a small amount from the betting; some of the suckers who bet their money will get a small per cent of the money they put in; most of the money will go to the professional gamblers and race track followers, the very scum of the earth, who come into the community, mop up on the suckers and take the money which should go into legitimate channels of trade. The business people of communities in which this legalized gambling is permitted pay the bill.

James E. Ferguson stated that 500 men in the penitentiary, sent there for violating the liquor laws, should be freed, and that he will make this recommendation to the Governor. If that is the way Mr. Ferguson feels about the situation, it is very evident that he is talking for his wife, Governor Miriam Ferguson. This would mean a complete break down in the efforts of the officers to enforce the liquor laws of Texas.

Bradley of Le Mars, above, left, and John Shafer and his son, Edwin, shown at bottom, right. Attempts by deputies to foreclose on the property of which the Shafers were tenant owners brought on the riots. Judge Bradley was dragged from court, beaten and almost hanged when he refused to swear he would sign no more farm mortgage foreclosures. parents. Petty crime on the part of young boys in Littlefield was responsible for the curfew law, and might be an aid in Canyon. Many houses have been broken into in Canyon the past six months, all of which is laid to boys who roam the streets at night.

A county judge in a neighboring county stated Sunday that he had had 75 juvenile cases in his court the past two months. Most of the cases were boys and girls who were allowed to roam the streets at night. A strict curfew law and strict home supervision would check this great mass of criminals in the making. With the break down in the old order of standards, the youth has stepped forth to do as he pleases under all conditions.

to be voted upon August 26th are being printed in the News this week. Read them carefully. The voters will be asked to pass upon the merits of these amendments, and cannot intelligently do so until time is taken to study the provisions of the amendments. The News will discuss these amendments at length before the time for the election. In the meanwhile, voters are invited to express their views in the columns of the News.

Passage of Farm-Inflation Bill Promises Speedy Relief for Farmers

WITH the administration pledging speediest action in putting into operation the new inflation-farm relief measure, the nation's debt-ridden farmers await eagerly the results of one of the most sweeping measures ever adopted by an American Congress.

To President Roosevelt and his assistants the new bill gives virtually dictatorial powers in aiding the distressed farmer, made desperate by years of increasing debts and declining income. To push up commodity prices, the bill permits—but does not order—the president to expand the currency by billions of dollars. Secretary of Agriculture Henry A. Wallace is given control of farm production, in a frankly experimental attempt to raise farm prices and do away with surplus crops. And the government takes over the refinancing of farm mortgages.

It will be the president's job to try to raise the dollar values of goods by expanding credit or currency, or both. He will first arrange with the Federal Reserve system to buy up federal obligations to the extent of \$3,000,000,000. If this inflated credit does not appreciably affect commodity prices, he may order new money printed in the same amount, unsecured by gold. This \$3,000,000,000 will be put into circulation by buying back government securities, and will be retired gradually by a sinking fund at 4 per cent annually. If this step fails to up prices, the president may resort to reducing the gold content of the dollar by as much as 50 per cent; or he may order unlimited coinage of silver at a ratio set by him. An additional feature of the bill is that he may accept \$200,000,000 in silver in payment of foreign debts; silver certificates to be issued against this bullion.

It is Secretary Wallace's task to bring about the reduction of farm acreage and production; and the taxing and licensing of processors in order to guarantee the farmer a "reasonable profit" on that part of his crop raised for domestic use. Farmers are to be rewarded by rental or bounty payments for making voluntary reductions in their acreage or production of certain crops. Cotton producers are sold options on government cotton in such amounts as they promise to reduce their crop, at the low price which the government paid for the cotton. The producers may then exercise their options at any time they wish; or the government may sell the cotton under option and turn the profit over to the pro-

ducer. Marketing agreements are to be arranged with producers, processors and distributors.

A THIRD section of the bill aims to ease the farmer's debt burden. A \$2,000,000,000 issue of 4 per cent Federal Land Bank bonds, interest to be guaranteed by the government, is provided for. The land banks are to buy up first mortgages or to exchange the bonds for them, by paying the unpaid balance or 50 per cent of the appraised land value, plus 20 per cent of improvement value. Interest on outstanding land bank mortgage loans are to be reduced to 4 1/2 per cent. Direct loans are to be made to farmers

who are in districts not covered by National Farm Loan associations. Joint stock land banks are to be gradually liquidated, and \$100,000,000 in loans made available to them, providing their interest rates are reduced to 5 per cent and their foreclosures suspended for two years. Two hundred million dollars credit is to be offered by the Reconstruction Finance Corporation to farmers who have been scaling down their indebtedness under the recent bankruptcy law; \$100,000,000 for refinancing indebtedness of drainage, irrigation and levee districts. And, to oil the wheels of the refinancing program, the treasury is to subscribe \$50,000,000.

Is Electricity

DOING ALL IT CAN FOR YOU?

It is the problem of the Texas Utilities Co. to manufacture electrical current and transport it to your home or place of business. This must be done economically.

After the current is turned on in your home, you most likely buy some light bulbs. Later you secure an electric iron, a percolator, or an extra floor lamp, etc. However, very few people use electrical current to its fullest capacity for service.

There are hundreds of little tasks that electricity will perform for you once you get the appliances. Right now is an excellent time to check your home carefully for greater use and needs. No doubt you will find new uses for this service performing current—uses that will cost but little but will count BIG in satisfaction and convenience.

WEST SIDE CLUB HAS BEEN ACTIVE

The activities of the West Side Home Demonstration club for the month of April were carried out according to the schedule outlined in the Year Book. At an enthusiastic all-day meeting at the home of Mrs. A. N. Burgan, Miss Bass met with the club on the second Wednesday of the month for the making of foundation patterns. On the fourth Wednesday of the month the same study was continued at at home of Mrs. B. A. Burrus with Miss Colly Burrus demonstrating.

The finance committee called a special meeting at the home of Mrs. Joe Tueck to discuss a plan for raising money for the treasury. At this meeting a social hour was enjoyed, and cocoa and cake were served the guests at the refreshment hour.

On last Wednesday, May 10, Miss Bass was with the club again at the home of Mrs. J. W. Bourn, and her discussion concerned the alteration of waist and sleeve patterns as adopted to changing styles. All of these lessons have been helpful and instructive, and most of the members of the club have expressed themselves as wishing to enter the dress contest in June.

GIRL SCOUTS GO TO CAMP KIWANIS

Forty Girl Scouts of Canyon, accompanied by Miss Lois Goodrich, their captain, left yesterday for Camp Kiwanis, where the first of a series of camps of girls from Canyon will be held until next Saturday evening.

Parents of the scouts furnished cars to take them to Camp Kiwanis, which is northwest of Amarillo. The girls earned money to pay the expenses of the outing. Supplies were bought locally under competitive bidding, but the prices of the various grocers were so nearly alike that the orders were placed at several places. The Texas Utilities Co. furnished the ice, and other donations were made to add to the comfort and happiness of those going.

Miss Goodrich will be assisted by Allie Mae Wilson, Ethel Ruth Collins, Erin Gamble, and Orlene Wilson. Swimming at Gem Lake will be a daily diversion, transportation from the camp to the lake being furnished by the Amarillo Scout organization.

AMARILLO WOMAN'S AUXILIARY HELD TEA HERE

One of the most delightful recent happenings at the Little House of Fellowship was the meeting last week of the Woman's Auxiliary of St. Andrews Episcopal church, at which Mrs. E. Cecil Seaman and Mrs. Page were joint hostesses.

Twenty-four members of the Amarillo organization came over, and eleven Canyon church women were invited to meet them. Mrs. J. B. Dooley, president of the visiting organization, presided over a brief program, which included a beautiful devotion based upon the Lord's Prayer, given by Mrs. C. J. E. Lowndes. The Creed and the Auxiliary prayer were said in concert by the entire group. Mrs. W. K. Chandler gave an interesting magazine review, after which the meeting was turned over to Mrs. Page, who announced several musical numbers.

Miss Frances Usery rendered a group of delightful piano numbers, in her usual finished style, and her selections were greatly enjoyed. Miss Ada V. Clark, of the college faculty, sang four songs, compositions of Charlotte Ingham Word, and lyrics by Mrs. Page, with Mrs. Word at the piano. These original offerings, sung with perfect interpretation, received much favorable comment. Bishop Seaman made a brief talk, expressing his deep interest in the student life of Canyon, and his approval of the social work of Miss Swisher and Mrs. Page. He also told something about the work at Seaman Hall, the Episcopal student center for the Texas Technological College at Lubbock.

At the conclusion of this part of the program, refreshments of spiced fruit punch, sandwiches and cakes were served. Mrs. Roy Wallrabenstein presided at the punch bowl, and Nell Green assisted in the serving. The hostesses were assisted in receiving by Mrs. J. B. Dooley, Mrs. Geraldine Green, Miss Helen Hickman, Mrs. C. W. Foote, Mrs. J. R. Hicks and Miss Swisher.

The Amarillo ladies brought a generous pantry shower to the Little House, and also made a silver offering to be added to the entertainment fund of the house.

GOODNIGHT MEMORIAL TRAIL

There's a rugged, winding, beautiful path
In the heart of The Texas Plains,
And its noble, big hearted citizenry
Is going to give it a name
To commemorate the memory of that dauntless spirit,
Whose courage never failed.
This winding path, so alluring, will be known as
"The Goodnight Memorial Trail."

This winding trail so enchanting,
'Tho surrounded by scenery rare,
Has been obscured from the masses
Since the Landscape Architect planted it there;
The bed of this trail is a chasm deep,
While magnificent clefts dot its walls;
In each cleft is hidden a treasure of gold,
Of profit and pleasure to all.
This heritage of the Panhandle,
As well as all the Southwest,
Is one of the choicest spots of earth,
Which Nature has gorgeously dressed.

Either side of this ever winding trail
Provides a cosy rendezvous
For His winged creatures—a haven it is—
For His human masterpiece too;
This playground of the great Southwest
To tourists has scarcely been known;
As a State Park, it now remains for us
To bring it into its own;
Too long have we been a-sleep
To this great provision of Nature
As an outlet for the many needs of man
From every rank and station.

As we think of this scenic spot of The Plains,
We liken it much to another
Of which we read in the Holy Writ,
The land of our Chosen Brothers.
To this land, a title they had, we are told;
Too faint they were to possess it;
A land that was goodly and flowing with milk,
But they slept on their rights and lost it.
We, too, have a title to a piece of God's earth,
So on our rights no longer we'll sit,
But with a towering faith like Joshua had,
We'll go over at once and possess it.
—Mrs. H. M. Baggarly.

During the winter quarter the class presented its annual play, "The Elopement of Ellen," which was directed by Miss Eulalia Burrus, of Floydada, and held its annual class party.

On the calendar for the spring quarter are the presentation of the senior gift to the school, this year a bust of Washington; the American University Women's tea for the girl graduates; "sneak" day picnic; an over-night hike; junior-senior banquet; commencement sermon to be delivered Sunday evening, May 28, at 8:30 o'clock, by Dr. Snodgrass, pastor of the First Christian Church of Amarillo, and the election of seven seniors and one junior to membership in the National Honor Society, a scholarship society fraternity for high schools, to be announced Wednesday afternoon, May 29, at initiation services of the society.

The commencement address which is scheduled for Wednesday evening, May 31, is to be delivered for the third consecutive year, by the father of a member of the class. In 1931 the address was made by W. L. Vaughn, and in 1932, by President J. A. Hill. This year it is to be made by Registrar D. A. Shirley, whose daughter, Louise, is to be one of the graduates.

While the class of thirty-four to be graduated by the high school this year is in many respects, not unusual, there are a few features about it which are rather unique.

One member of the class, J. C. Baker, has made no grade below "A" on any course, during his four years in high school. He is the son of Mr. and Mrs. J. C. Baker, of Canyon. Margarette Meyer holds the next highest average, having no grade to her credit during her senior year below "A," with the exception of one "B."

The personnel of the class, made up of twenty-two girls and twelve boys, include sixteen out-of-town students.

Dan Aynesworth of Borger is president of the class, and Miss Helen White Moore is class sponsor.

The following will receive diplomas at the closing exercises to be held May 31:

Members of the 1933 Bonus Expeditionary Force became acquainted with the "new deal" when the Roosevelt administration provided them with tents, bedding and food at Fort Hunt, Va., near Washington, while they awaited congressional action on the bonus. These camp scenes present a vivid contrast to the unsanitary conditions which existed last year when a bedraggled bonus army lived for several months in makeshift huts on Washington's Anacostia Flats. Above, Fort Hunt bonusers are shown getting their evening "chow"; below, a group of vets are having a chat before bedtime.

Invest Your Printing Money in Canyon

WOULD YOU BUY IT AGAIN?

When your answer is NO it is never a bargain

Unless it gives you your money's worth in value, and the satisfaction in use which you expect, no product is ever a bargain.

Yet many of these "would-be" bargains are in the stores today!

Packaged products you have never heard about, or seen advertised. Brands put out by manufacturers whose names mean nothing to you.

In many cases the only appeal of these products is a "bargain" price; their sole claim of merit, a clerk's promise that they are "just as good" as the better-known brands you ask for.

Any time you are persuaded to buy them you may be **wasting your money.**

In unfamiliar packages now urged upon you, there is often **cheap merchandise**—the offering of manufacturers who have gone too far in their efforts to make your money buy more **quantity.** Products in which **quality** has been sacrificed to make a low price still lower.

When you shop today, look at the **label** as well as the **price**—for a well-known label is a guarantee of quality. The genuine bargains are among the brands you recognize! Many of them now cost less than they have in years.

Woman's Place Not Only in the Home, Believes President Roosevelt

THE hand that rocks the cradle may not literally be ruling the nation, but it is at least beginning to have a part in directing the nation's domestic and foreign affairs. President Roosevelt's appointment of Frances Perkins, Ruth Bryan Owen and Nellie Tayloe Ross to high government posts is an unusual development of an unusual administration.

The president is the type of man who would warm the hearts of the old-time militant suffragists. He doesn't believe that a woman, because she is a woman, is a tyro at anything outside the home. His respect for feminine judgment, revealed many times, and his selection of women to handle important jobs both in New York and in Washington, indicate this fact.

The selection of Frances Perkins as secretary of labor was almost a foregone conclusion. The woman he had named industrial commissioner of New York state had managed, with remarkable efficiency, a bureau with a personnel of 1900 people, handling a tremendously wide range of industrial problems.

In carrying out the spirit of his "new deal," Roosevelt needed for the labor post a crusader with vision and a keen knowledge of politics. Miss Perkins learned her politics under Alfred E. Smith, "Big Tim" Sullivan and other of the ablest politicians of the Empire State. And her consistent battle for better working conditions in New York vouched for her crusading ability. It was due to her vision and pluck that the 54-hour-week bill for women and children was made a New York law.

The wife of Paul Wilson, prominent efficiency engineer and mother of one daughter, Frances Perkins was born in Boston of an old Colonial and Revolutionary family. Sociology, studied at Holyoke College, and social conditions observed later in Chicago and New York, determined her vocation. Her spirit and ability attracted Alfred E. Smith's attention, and he made her a member of New York's Industrial Commission. In 1929, Governor Roosevelt made her head of the department.

RUTH BRYAN OWEN'S knowledge of Denmark, and her friendship with Danish notables, probably had a lot to do with her selection for the post of minister to that country. But there were other factors. Mrs. Owen is regarded as one of the best dressed, most debonair and one of the wit-

In the appointment of Frances Perkins, above left, as secretary of labor; Nellie Tayloe Ross, above right, as director of the mint; and Ruth Bryan Owen, bottom, as minister to Denmark, President Roosevelt reveals his respect for feminine ability.

tiest women in public life. She possesses, besides, a masculine mind and much of the eloquence of her father, "silver-throated" William Jennings Bryan.

She is the widow of Maj. Reginald Owen, a British Army officer, and is the mother of four children. Mrs. Owen has led an active life. After graduating from the University of Nebraska, she attended European schools, lived for a while in West Indies, was an army nurse in the Egypt and Palestine World War campaigns. After the war she studied law in Florida, and from that state was elected to the Seventy-first and Seventy-second Congresses.

NELLIE TAYLOE ROSS, whose signature will be seen on all new paper money, was the United

States' first woman governor. It was in 1924, shortly after the death of her husband, Gov. William B. Ross, that Wyoming selected her to take over the governorship and carry out his aims. Falling of re-election by a slight margin, she stumped for Al Smith in 1928. Her Democratic activities brought her the vice-chairmanship of the Democratic National Committee and, now, the post of Director of the U. S. Mint.

Born in St. Joseph, Mo., and the mother of three children, all boys, Mrs. Ross will be busy in her new post. Aside from having her signature on new paper money, she will be busy keeping the books of the secretary of the treasury which show the movements of billions of dollars, and will prepare his daily, monthly and annual reports.

An interesting program was rendered by the pupils and also some of the patrons.

Mr. and Mrs. R. N. Henry were visiting near Wayside Sunday.

Mr. and Mrs. O. A. Smith spent Sunday afternoon with Mr. and Mrs. Henry Ellis.

The older children accompanied by Miss Hastings, Forrest Gruner and Mrs. Bertha Gowdy left Friday for Carlsbad and returned Sunday, visiting the Carlsbad Cavern. Monday a picnic was enjoyed by the school children and their friends.

Bill Wright spent the week end visiting in Rogers, New Mexico.

Mrs. Emma Gruner, Miss Birda Hastings and Frank and Forrest Gruner visited Wednesday evening with Mr. and Mrs. Paul Matthews.

Mr. and Mrs. Bailey McCormick motored to Wildorado Sunday.

Mr. and Mrs. O. A. May of Canyon visited Mr. and Mrs. H. R. Fulton Sunday.

Radio Talent From W. T. Doing Weekly Broadcast Recital

Discovery of recently added talent in W. T.'s student body is the finding of Bill and Edd Todd, brother musicians from Memphis, Texas, who have been making weekly broadcasts over Radio Station KGRS in Amarillo each Wednesday evening from 7:00 to 7:15. They are broadcasting under the title of "T-Anchor Cowboys."

The Todd brothers feature cowboy songs interspersed with some popular music. At their second appearance they received fourteen requests in their fifteen minutes recital.

W. T. students and faculty members are invited to listen-in on these programs. The two boys make their home on the T-Anchor Ranch.

The three R's have the three B's to contend with—beer, baseball and ballyhoo.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS

S. J. R. No. 3
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of Texas be amended by adding thereto a section to be Section 3, which shall provide:

"Section 3. (1) Holding the belief that the highest degree of local self government which is consistent with the efficient conduct of those affairs by necessity lodged in the Nation and the State will prove most responsive to the will of the people, and result to reward their diligence and intelligence by greater economy and efficiency in their local governmental affairs, it hereby is ordained:

"(2) Any county having a population of sixty-two thousand (62,000) or more according to the then last Federal Census may adopt a County Home Rule Charter, to embrace those powers appropriate hereto, within the specific limitations hereinafter provided. It further is provided that the Legislature, by a favorable vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county, having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of intent to seek Legislative authority hereunder must be published in one or more newspapers, to give general circulation in the county affected, not less than once per week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty (30) days next prior to the time an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favorable vote of the resident qualified electors of the affected county. In elections submitting to the voters a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately kept and separately counted, and unless there is a favorable majority of the votes cast within and a favorable majority of the votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such Charter may in any way affect the operation of the General Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and health systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision inimical to or inconsistent with the sovereignty and established public policies of this State, and no provision having such effect shall have validity as against the State. No Charter provision may operate to impair the exemption of homesteads as established by this Constitution and the Statutes relating thereto.

"(3) a. A Charter hereunder may provide: the continuance of a County Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or may provide for a governing body otherwise constituted, which shall be elective, and service therein shall be upon such qualifications, for such terms, under such plan of representation, and upon such salary or tenure and compensation as may be fixed by any such Charter. The terms for service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by such Charter, such governing body shall exercise all powers and discharge all duties which, in the absence of the provisions hereof, would devolve by law on County Commissioners and County Commissioners' Courts. Further, any such Charter may provide for the organization, reorganization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties required in the conduct of the county affairs, subject to the limitations herein provided.

"b. A Charter hereunder may provide that Judges of County Courts (including that County Court designated in this Constitution) and Justices of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this constitution, and the duties of the Judges thereof, may be confined to that general jurisdiction of a probate Court which elsewhere is defined in this Constitution. The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such Charter shall provide for altering the jurisdiction or procedure of any Court. The duties of District Attorney and County Attorney may be confined to representing the State in civil cases to which the State is a party and to enforcement of the State's Penal Code, and the compensation of said attorneys may be fixed on a salary basis in lieu of fees.

"c. Save as hereinbefore and hereinafter provided, such Charters, within the limits expressed therein, may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish any office or department, whether created by other provisions of the Constitution or by statute, define the duties thereof, fix the compensation for service therein, make the same elective or appointive and prescribe the time, qualifications and conditions for tenure in any such office; save that no such Charter other than as hereinbefore authorized, shall provide to regulate the status, service, duties or compensation of members of the Legislature, Judges of the Courts, District Attorneys, County Attorneys, or any office whatever by the law of the State required to be filled by an election embracing more than one county. Excepting herefrom nominations, elections or appointments to offices, the terms whereof may have expired prior to the adoption

THE GREAT AMERICAN HOME

of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices which must continue to be elective, as herein elsewhere specified), all terms of county officers and all contracts for the giving of service by deputies under such officers, may be subject to termination by the administrative body of the county, under an adopted Charter so providing, and there shall be no liability by reason thereof.

"d. Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for specific purposes, in accordance with the Constitution and laws of this State, provided, however, that the limit of the aggregate taxes which may be levied, assessed and collected hereunder shall not exceed the limit or total fixed, or hereafter to be fixed, by this Constitution to control counties, and the annual assessment upon property, both real, personal and mixed, shall be a first superior and prior lien thereon.

"e. In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may, by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties.

"(4) Any county operating hereunder shall have the power to borrow money for all purposes lawful under its Charter, to include the refunding of a lawful debt, in a manner conforming to the General Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid unless authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to affect such obligations, who may vote thereon. In case of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there is levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"(5) Such Charter may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified service, to be in lieu of the schedule for such fees prescribed by the General Laws of the State; and, to appropriate such fees to such funds as the Charter may prescribe; provided, however, no fee for a specified service shall exceed in amount the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for services, provided the standards thereof be not lower than those fixed by the General Laws of the State.

"(6) a. Subject to the express limitations upon the exercise of the powers by this subdivision to be authorized, such Charters may provide (or omit to provide) that the governmental and/or proprietary functions of any city, town, district or other defined political subdivision (which is a governmental agency and embraced within the boundaries of the county) be transferred, either as to some or all of the functions thereof, and yielded to the control of the administrative body of the county. No such transfer or yielding of functions may be effected, unless the proposal is submitted to a vote of the people, and, unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature, such a

proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless two-thirds of the qualified voters cast within the yielding defined governmental entity, and a majority of the qualified voters cast in the remainder of the county, favor the proposed merger, it shall not be effected. In case of the mergers hereby authorized, without express Charter provision therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate lawful powers, duties, rights, procedures, restrictions and limitations which prior to the merger were reposed in, or imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits, as now are, or hereafter may be, provided by law to control such appropriate other governmental agencies were they to be independently administered. Such mergers may be effected under proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinbefore provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contracts shall not be valid for more than two (2) years.

"b. In cases of the partial or complete merger of the government of a city operating under a Home Rule Charter, with the government of a county operating hereunder, those city Charter provisions affecting the merger shall cease to control, and the county Charter provisions shall control.

"c. When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such cities and towns, provided, however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof the county, in addition to the principal city or town tax lawfully authorized and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of this Constitution, (or any Amendment thereof) for incorporated cities according to the population, provided that no tax greater than that existing at the time of such merger or for any added purpose shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of such city or town.

"d. Any urban in character though not incorporated, under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county shall be defined as an urban area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State, and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits as controlling for a city or a town of like population. Likewise such Charter may provide for the governing board of the county subject to existing Constitutional and statutory provisions to define, create and administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same.

"(7). No provision of this Con-

stitution inconsistent with the provisions of this Section 3, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming herewith. Charters adopted hereunder shall make appropriate provision for the abandonment, revocation, and amendment thereof, subject only to the requirements that there must be a favorable majority of the vote cast upon such a proposal, by the qualified resident electors of the county; and, no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions hereof shall be self-executing, subject only to the duty of the Legislature to pass all laws (consistent with which may be necessary to carry out the intent and purpose hereof. Further, the Legislature shall prescribe a procedure for submitting to decision, by a majority vote of the electors voting thereon, proposed alternate and elective Charter provisions."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following:

"For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

"Against the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

Each voter shall scratch out one of the above listed clauses on such ballot, leaving unscratched that particular clause which expresses his vote on the proposed Amendment to which it relates.

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election in conformity herewith to determine whether or not the proposed Constitutional Amendment set forth shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

Some Fancy Plane Ideas

Passenger cabins under each wing, instead of on the fuselage, are a feature of the new type French airplane shown above. The front motor pulls the plane, while the rear motor pushes it. The odd device shown below is a model of what its inventor, V. E. Edwards of Washington, D. C., claims to be a very efficient dirigible, blimp or airplane, it being easily convertible. It is a framework of 10 long metal tubes containing helium and carrying two-passenger gondolas. The airship is propelled by a huge propeller mounted in the hull, which drives the air through the hollow core of the craft. Edwards is shown with his invention.

At Front in Milk Strike War

After several pitched battles between deputies and milk strikers near Shawano, Wis., in which scores were injured and some 200 strikers were made prisoners, national guardsmen, sworn in as deputies and wearing civilian clothes, succeeded in driving the pickets from the highways. The scene above was taken during the height of one battle in which tear gas, clubs and rocks were freely used.

Plans Ascent to Stratosphere

In a globular "basket" and balloon now under construction, Lieut. Com. T. G. W. Settle, above, plans to make a flight into the stratosphere this summer for scientific purposes and in an attempt to break the 10½-mile altitude record of Prof. Auguste Piccard, noted Belgian scientist. The ascent will take place in Chicago, probably in July. Lieut. Com. Settle won the 1932 International balloon race.

BUFFALOES WILL MEET NEW COMPETITION IN FALL GAMES

Will Not Compete In Active Conference; Okla. Teams Prevail

When the West Texas State Teachers College football team takes the field this fall, it will be against almost altogether new competition. Following the organization of the Texas Conference and the Lone Star Conference into more compact organizations from teams formerly of the T. I. A. A., West Texas Teachers, Sul Ross Teachers, and Texas A. & I. found themselves out on a limb.

McMurry, Abilene Christian College, and Daniel Baker College maintained membership in the T. I. A. A. the past year in order that West Texas, Sul Ross and Texas A. & I. might have a governing body and maintain their standing in the Texas Association and Southern Association of Colleges.

But beginning the fall term, the three mentioned schools of the Texas Association of Colleges, operated under the old T. I. A. A. rules with Dr. Penick president of the Southwestern conference, acting as commissioner.

West Texas will be competing under somewhat of a handicap since the Freshman rule is still in effect and only two of the schools thus far scheduled, Simmons University and McMurry College, have the three year rule. West Texas has four of the Oklahoma State Teachers Colleges scheduled, and negotiations are being carried on with the fifth, for football this fall. Also there is a possibility that the Buffs will meet the Oklahoma City University Goldbugs at Canyon late in October.

The schedule as arranged so far: Sept. 22, Southwestern Teachers at Weatherford, Okla.

Sept. 29, Simmons U. at Canyon.

Oct. 6, Central (Okla.) Teachers at Canyon.

Oct. 13, McMurry College at Canyon.

Oct. 20, East Central at Ada, Okla.

Oct. 28, open, O. C. U. Goldbugs a possibility.
Nov. 4, open, Southwestern (Okla.) Teachers a possibility.
Nov. 11, New Mexico Military Institute at Canyon.
Nov. 18, open, Normal University Las Vegas, N. M., a possibility.
Nov. 25, Northwestern (Okla.) Teachers at Amarillo.
Nov. 30, open.

Happy Brides Prepare for Marry Month

LATE MODE FAVORS SATIN IN OFF-WHITE SHADES FOR BRIDAL COSTUME; NET OR ORGANZA FOR ATTENDANTS

BY HARRIET

JUNE is the month of weddings but now is the time when the bride and her attendants get ready for the important event.

The happiest brides on the Day of Days are the ones who trip down to the altar knowing full well that the mode as well as the good wishes of the wedding guests are with them.

It is a smart bride who chooses a material for her wedding gown so handsome that ornateness of style and design is not necessary. You have a world of gorgeous materials from which to choose this year. Net is shown as well as plain crepe and that good old standby, satin. If it's to be a garden wedding, organza and silk organza may appeal to you. There is also much to be said in favor of lace gowns.

Although palest pastels are being worn to some extent the off-white shades continue to lead the fashion parade for the bride. White that just missed being pearl gray or is faintly yellow are more becoming than pure white. Satin lends itself particularly well to these off-white shades.

If you are planning to wear a veil which has been handed down in your family for generations you are saved the trouble of shopping for one. Lace veils are tied for first place only by tulle itself. The shape of your cap of lace or tulle is determined by your own face and coiffure. Little, wistful faces look well in caps shaped like babies' hats while the dignified, sophisticated bride will enhance her own appearance by a sleeker fitting cap.

Brides, for the most part, wear long-sleeved gowns. Much of the fullness is centered at the shoulder leaving the sleeve itself long and shimmering and tight-fitting. There is no reason in the world why your wedding frock shouldn't be turned into a lovely evening dress to be worn a whole season following the wedding itself.

Necklines on wedding gowns are important. They must depend on your own neck and face. V-necks are a too-short throat; cowl necklines are too short and flatter and square ones are new and becoming to many women.

A gown cut on princess lines can be very regal indeed. Net gowns

These costumes, exhibited at a Philadelphia fashion show, show the bride, center, wearing a plain satin gown with cowl neckline. A tulle veil and bouquet of garden flowers complete the ensemble. The maids' dresses are of lavender organza, the skirt bottoms and caps being trimmed with triple rows of petals of self material. Velvet violets fashion their hats and the tops of the shirred satin muffs.

are often trimmed with dainty rows of fluting while satin and crepe ones go untrimmed depending on their own rich appearance for sheer beauty.

NET or organza are ideal materials for the bride's attendants. These two bridesmaids' dresses are of lavender organza and are made with fitted bodices and full bias-cut skirts. The bottoms of the skirts are trimmed with triple rows of petals of self material. The lovely capes which cover the forearms are made entirely of petals

like the ones on the skirts. The two maids carry muffs of shirred violet satin which are topped off with bunches of velvet violets. The diminutive hats are made of velvet violets, too.

The bride, herself, wears a perfectly plain satin gown with cowl neckline. The shoulders are plain, the sleeves very long and smoothly fitted.

Her tulle veil is fastened tightly across the front half of her head and flows gracefully down the back. She carries an enormous bouquet of garden flowers.

Gulf Company Puts on Extensive Campaign

Here's one of the most remarkable stories, as well as one that is of special interest to all the people of Texas. Three years ago the Gulf Refining Company engineers made a discovery of revolutionary importance to the oil industry. A discovery so advanced, so significant, that it made possible a finer, longer-lived motor oil than the industry had ever seen.

This discovery was an utterly new refining process—the now-famous Alchor Process, exclusive with Gulf. The oil made by it is called Gulfpride.

At first it was possible to produce only limited quantities of this new and remarkable oil. But so amazingly outstanding was its quality that—utterly without advertising and publicity—its fame spread throughout the United States and all foreign nations. It came into universal demand wherever the finest motor lubrication was sought.

Gulfpride has now proved itself beyond question the finest motor oil in the world. This oil is manufactured in the Gulf Refinery in Port Arthur, Texas. It has established seventeen world's records. It has surpassed every set of specifications ever issued for a motor oil, including U. S. Army, U. S. Navy and British Government.

Gulfpride is now in demand in all corners of the earth and shipped to all points from Port Arthur, Texas, where it is manufactured.

The current extensive advertising campaign of the Gulf Refining Company now appearing in Texas newspapers is stressing this oil and, too, the fact that Gulf stations sell three grades of oil and gasoline at three different prices, ranging from the buying power of the motorist who wants a low priced gasoline or oil, but wants the most possible value for the money, to the motorist who wants the very best regardless of cost.

Will Rogers can be heard on the air every Sunday evening on the Gulf Refining Company radio program at 7:00 p. m., and Irvin S. Cobb on Wednesday and Friday evenings at the same hour. A weekly comic paper is distributed free at all Gulf stations.

The New Gulf station, J. C. Baker, manager, is the latest station opened by this company in Canyon.

Miss Gladys Beavers spent the week end with relatives in Hereford.

Ex-Students Have Art Exhibit at History Museum

The Ex-Student Art Exhibit which has been hung in the Museum since last Saturday can be seen Saturday of this week for the last time.

The exhibit has been seen by about seven hundred visitors, many of whom have been genuinely interested in it. The work is that done by former students of the college since their graduation. It came from those who have studied in the art department since 1925. It will be removed to permit the hanging of the annual Senior Exhibit.

Rudolph Fuchs, now of the Art department of the State Teachers College, Denton, exhibits a group of freehand, inkline contour drawings, made without sketching or erasures.

Miss Delia Pearl Wysong Oberst (Mrs. Fred Oberst) sent three designs and a still life study in pastels.

Miss Lorena Holland, now of Hurley, New Mexico has hung two oil paintings, both depicting the Taos region, while Lillian Duncan of Amarillo sent a self-portrait in oil.

Miss Marion Landrum, formerly of Hereford, now of Greenville, N. C., added two still life studies in water color, one showing tulips, the other zinnias. Mrs. Pauline Scott exhibits two etchings, and from Mrs. Clyde Slaughter came an oil painting, called "A Spring Storm." Ada Claire Bain sent an oil, "Alma Mater" and Mrs. Jessie Mae Scott Dodson of Canyon added two oils, and Mrs. Launa Moore Pearson of Perryton sent a water color. Miss Ethel Collins shows a small oil painting of a campus scene.

Senior art students who will be represented in the exhibit which will be in place for May 28, are Beth Blythe, Pampa, Mildred Bishop, Memphis, Jewell Gibbs, Amarillo, Josie Wiggins and Maxine McCarty, Canyon, and Lucile Burrus, New Boston.

The new exhibit, which will remain up until June 2, will be composed of etchings, oil paintings and water colors. Some of the etchings are the work of juniors of the department, but the remainder of the pictures are those of students who will leave the campus next Thursday. Visitors at the museum are invited to express their opinions of pictures exhibited.
